Byron Area Schools

Byron High School Annual Education Report (AER) Cover Letter

September 2013

Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2012-2013 educational progress for Byron High School. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, Adequate Yearly Progress (AYP) and teacher quality. If you have any questions about the AER, please contact Mr. Frank Trotter, Interim Principal, Byron High School.

The AER is available for you to review electronically by visiting the following web site www.byron.k12.mi.us or you may review or obtain a copy from the Byron High School office.

The state has identified some schools with the status of Reward, Focus or Priority. A Reward school is one that is outperforming other schools in achievement, growth, or is performing better than other schools with a similar student population. A Focus school is one that has a large achievement gap in 30% of its student achievement scores. A Priority school is one whose achievement and growth is in the lowest 5% of all schools in the state. Our school has not been given one of these labels.

The major challenge facing Byron High School is lack of adequate funding for education over the years. This leads to cutting teaching staff and larger class sizes at the high school level. Even though we face these problems, we are starting a college readiness program to improve student growth. By using formative and summative assessments, we will be able to identify any learning gaps and implement interventions to address these areas.

Process for Assigning Students to the School

Byron High School services all students in grades 9-12 that live in the Byron Area School District. The school also accepts school of choice students from other districts to the extent that enrollment capacity allows.

Status of the 3-5 year School Improvement Plan

The School Improvement Team has written a school improvement plan focused on raising achievement in writing, math, reading, science and social studies. The team

analyzed data in each of these content areas and developed a strategic plan for accomplishing these goals.

Brief Description of each Specialized School

It is the philosophy of the Byron Area Schools and the Shiawassee Regional Education Service District to serve each person with special needs in the least restrictive environment. A continuum of education placement options is offered from age 0-25, which provides for mild to severe handicapping conditions, supportive services, and vocational training programs designed to meet the needs of special needs persons.

The placement options are provided through cooperative planning by the Byron Area Schools, Shiawassee Regional Education Service District, and the Michigan Department of Education, since no district could support a full continuum itself. The Shiawassee Regional Education Service District operates programs and services for the low incidence populations. Likewise preprimary impaired programs are center programs serving clusters of districts. For the high incidence of EMI, EI, and LD, each individual district offers those options that best meet their needs. However, by agreement, each district can have placement access to categorical programs operated by another district, if appropriate. In this way, a full continuum is available in an efficient and cost effective manner regardless of district size. Byron does have students who attend programs within the Shiawassee Regional Education Service District.

Core Curriculum

Byron High School has completed written core curriculum in the areas of social studies, science, language arts, and mathematics. During the 2012-2013 school year each core area continued to be reviewed and developed, with an emphasis on the new common core standards in Math and English Language Arts (ELA). The Common Core State Standards for Math and ELA and the High School Content Expectations (HSCE) for grades 9-12 in Science and Social Studies are integrated into the existing curriculum. No variances between student outcomes written for Byron Area Schools and the Michigan Department of Education Core Curriculum exist. All curriculum work stems from the Frameworks Process, High School Content Expectations, Common Core State Standards, and all other state standards and benchmark documents prepared to assist district efforts in curriculum development. Assessment of the core curriculum, as well as all other curricular areas, is ongoing.

Locally Administered Tests

Students in 10th grade take the PLAN test. Students in 9th and 10th grade take math, reading, and language arts NWEA Map test.

Parent Participation

Parent-teacher conferences were held in November. Conferences were held during two evenings with 42% of our parents participating.

College Credit for Dual Enrollment

In 2012-2013, 12 (3.13%) students participated in dual enrollment classes.

AP Courses

In 2012-2013, 2 AP courses were offered. 40 (10.42%) students were enrolled in these classes. 12 (30%) received a score leading to college credit.

- Literature & Composition.
- Calculus.

Byron High School is made up of dedicated professionals and support staff who recognize the students as very special people who are here to learn and grow. We are also fortunate that our parents are very involved and support the staff and students in a variety of ways. We will continue to stay focused on academics while setting high standards for character and behavior by following the Eagle Code. With the support of the school, family, and community members we can make a difference.

Sincerely,

A handwritten signature in cursive script that reads "Frank Trotter".

Frank Trotter
Interim High School Principal
